## Flutter Developer (Android and IOS)

---

### Introduction

Mobile App Developer with experience in Flutter development. Proficient in using the Flutter framework to develop cross-platform applications, having substantial expertise in both the iOS and Android platforms. Has extensive expertise in SwiftUI for iOS app development. Experienced in developing high-quality, user-friendly mobile applications with an emphasis on performance and responsiveness. Collaborative team player with a track record of success working with cross-functional teams. Dedicated to continual learning and staying current with the newest trends and technology in mobile app development. Committed to producing excellent results and surpassing customer expectations.

---

### Flutter Projects

- I was a key contributor to the growth and success of the Krishi Vikas mobile app as its primary developer. I vastly enhanced the user experience and engagement by adding a user-friendly post editing system, sophisticated search features, a referral system, an image compressor, and new filters. In order to guarantee the reliability of the software, I also rigorously fixed problems and performed quality control. In addition to overseeing the app's development, I was also responsible for managing its visibility on the Google Play Store. To keep the app current and functional, I routinely uploaded updates and improvements. I made Krishi Vikas into a reliable agricultural platform with a passion for innovation and a commitment to excellence, acting as a helpful resource for farmers, vendors, and enthusiasts alike.

- I took on the challenge of creating an iOS version as the mobile app's lead developer to increase its accessibility to Apple consumers. I was able to get the app approved on the Apple App Store by following their requirements and improving performance.

After the app was released, I was in charge of regularly upgrading and maintaining it to guarantee its reliability and use.

- I have also developed "Apna Bharat - India Tourism," a mobile app designed to help tourists discover tourist locations across India, I successfully designed and implemented a user-friendly interface that allows users to easily search for and learn about popular destinations. This app has become a go-to resource for travelers looking to explore India's rich cultural and historical heritage.

- As the lead developer of "CodeBook," a mobile app available on the Google Play Store, I designed and implemented an interactive platform that helps students learn programming languages such as C, C++, Java, and Python. Through a user-friendly interface, users are able to access a wide range of tutorials, exercises, and other learning resources that have been tailored to their specific needs. Thanks to this app, students can easily improve their coding skills and prepare for future careers in the tech industry.

---

## Experience

---

### Abybaby E-Com Pvt. Ltd. / Flutter Developer - Kolkata

Currently working as Flutter developer , started from 1 May, 2023

### Chegg India Pvt Ltd / Freelancer

from October 27, 2021, through April 30, 2023, I began working as a freelancer here.

### Freelance Mobile App Developer with Flutter

As a mobile app developer, I have created numerous apps that are available for download on the Google Play Store under the developer profile "AK Innovations Pvt Ltd." You can find more information about my other works and explore my full range of skills and expertise in app development by visiting my developer profile.

---

## Education

---

### Aryabhata Institute of Engineering and Management / Electrical Engineering

2014-2018, Durgapur

Completed my b.tech in Electrical Engineering with 7.91 DGPA\

### St. Xavier's College /Intermediate Science

2011 - 2014, Ranchi

### D.A.V. Public School /High School

1999 - 2011, Gumla

---

## Certificates

- Certified in Android Flutter from TechGig
- Certified in Core Java & Advanced java From Sathya Technology , Hyderabad
- Certified on project from Maulana Abul Kalam University Of Technology

---

## Skills

- Flutter
- SwiftUI
- Core Java
- Microsoft Office

---

## Language

- English
- Hindi
- Bengali

---

## Quality

- Adaptability
- Creativity
- Leadership
- Teamwork

---

## Declaration

I hereby declare that all the above information mentioned are true and correct to the best of true knowledge
